

Hotep Calvin,

I am writing to you with much appreciation for the Wisdom and Knowledge that you impart with your “Corporation Sole” seminar/workshop. The information that I learned caused me to rethink everything that I am doing with respect to organizations and even in affairs pertaining to my personal life.

The language and literature was clear and concise, and the documentation, references and case history leaves no question about the validity of the Corporation Sole as well as the absolute necessity for operating as an entity other than a 501.c3. There is also no doubt in my mind now about the vulnerability of the institutions that are the bedrock of our community, the churches. This should be a required course work for all church leadership and administration personnel.

In addition to the manual that came with the course, you included an indispensable extensive library of reference material of over 200 books and documents pertinent to the issue of self sufficiency and sovereignty; subjects that range from Corporation Sole to issues of health and wellness. I remember exploring the material and thinking, “My goodness! What didn’t he include?” The reference material alone is worth the cost of the seminar!

I would whole heartedly recommend your seminar to any individual or organization that recognizes the need to operate and/or conduct their affairs as a self-sufficient, sovereign, independent and free entity.

Please be sure to consider me as a participant in any other seminars, classes or workshops that you may be conducting in the future.

To Our Eternal Freedom
Ankh Udja Seneb! (Life, Prosperity, and Health!)
